

Strong Foundations Planning

Grant Update-October 2023

Framework Development

The grant leadership team continues to meet with our Moak Casey partners each Friday to work on the written framework document. So far, the group has created district belief statements that align with each of the best practices we learned during the professional development stage of the grant. These belief statements are then connected with action steps for students, teachers, district/campus leadership, and parents.

Before leaving, committee members were asked to submit suggestions for the steps that district/campus leadership and parents could take to support the action steps that were agreed upon for teachers and students. The leadership team has met three times since then to finish writing action steps based on committee suggestions and refining the vision statement for the framework. The vision statement and remaining action steps will be presented to the committee at the next meeting on October 16th.
